

Chief, Foreign Division M

16 March 1951

Chief of Station, Karlsruhe

Operational
Camise

Ref: MGK-7914, 16 February 1951, Project Approval for Camise

1. I hasten to assure you that when [] and the undersigned stated that our knowledge of Camise's war-time record cannot be considered a permanent control factor, we did not mean to imply that Camise's services would, or even might, end simultaneously with the disappearance of this control factor. I repeat that Camise works for us primarily and overwhelmingly because of ideological considerations. The control element is there, and will remain for some time to come; whether for a year or not is admittedly pure guess work. However, the control element never had to be considered in our relationship with her, much less resorted to.

2. I have no doubt that Camise's loyalty toward us would hold in peace or war, with the possible exception noted before, i.e. her coming under the emotional influence of a man with a basically different ideology. On basis of my personal knowledge of Camise, I am satisfied that we would become aware of such a development, were it to take place.
